Our stress free, step by step guide

1. Free Market Appraisal

If you are thinking of letting your property, this FREE service will help you understand what your property is likely to achieve, the current market conditions and advice on how to make sure your property is ready to rent.

2. Choose the right package

Instruct us to let your property and choose one of our packages in this brochure. Simply let us find a tenant or hand the full reins over to us, its completely your choice. Make sure you have taken into account all other fees you may incur such as insurance, certificates, boiler cover, ongoing maintenance, tax etc.

3. Presenting your Property

First impressions are key! If you want tenants who are going to look after your property as if it were their home then make sure the property is clean, tidy and well maintained. Low cost jobs such as finishing any DIY jobs or a fresh coat of paint can make a real difference to how a property looks to potential tenants.

4. Do you have all your paperwork in order?

Our professional and qualified team will advise you on how to make sure you are complying with the law. You may need a number of legal certificates such as an EPC, Gas Safety Certificates etc. We can arrange those for you where necessary.

You may also need to make sure you have notified any mortgage provider, arranged relevant insurances and check you will be paying the right amount of tax.

We advise having a comprehensive inventory undertaken to assess the condition of the property and its contents- you will need this for future inspections & at check out.

5. Marketing Your Property

Your property will be instantly available on our website and uploaded to online portals including rightmove. We also use social media sites such as facebook for extra exposure. We have the benefit of excellent LED window displays in prominent locations and your property will be immediately mailed out to our extensive applicant list.

6. Choosing the Right Tenant

Once the rental price has been agreed prospective tenants should always be referenced thoroughly and checked that they have the right to rent in the UK. We will then draw up a tenancy agreement which complies with all current regulations to make sure you are as protected as possible as a landlord. We will take the deposit from the tenant and protect the deposit as required by law in the DPS. We are also part of the Propertymark Client Money Protection Scheme.

7. Managing the Property

If you choose to manage the property yourself then its over to you at this point. Choose our Fully Managed package and you can relax knowing we will take control. We cover all aspects of property management for you including collecting the rent, inspections, arranging repairs and serving notice to remove tenants if necessary to name a few.

Our clients are our best advertisement

Don't just take our word for it... have a read of
what our customers say about us.

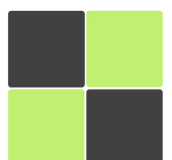

I have had the pleasure of not only purchasing a property from Lesley and her team but also the seamless process of renting the property out.

Very professional and knowledgeable throughout, honest and realistic in their instructions, I would not hesitate to recommend them.

Fast at getting back to you, professional and very helpful. I used them to sell my home and also to advertise my Buy To Let properties and, having used J&C and others in the past I can categorically say Lesley Hooks are the best estate agents on the Wirral. Thank you!

My only regret is not going with Lesley Hooks sooner. They advised me brilliantly, found me a tenant in no time and every time call to ask if I need to do this or that, they've already done it. For landlords, hand them the property and let them get on with it. Can't recommend them enough. Thank you all so much, you've been amazing.
